Wholesale Trade List
of
**The Shrewsbury
Nurseries**

Geo. A. Steele, Prop.

Eatontown, New Jersey

Geo. A. Steele

Attention is especially directed to the low prices at which we offer Norway Maples and Oriental Planes in this list. These trees are well grown, thrifty and first class, and are offered at a very low price, because we are overstocked and wish to reduce.

TERMS AND CONDITIONS.

The trees and plants offered in this list have all been carefully grown for our retail trade, and are in excess of our wants for the coming season. The trees have been given plenty of space to make good heads and the shrubs are very heavy and bushy.

CUSTOMERS are requested to state mode of shipping, express or freight, and by what route. When none is given we exercise our judgment, but in no case do we assume responsibility after goods are shipped unless for our own mistakes.

While we exercise the greatest care to have all trees, shrubs and plants sold by us genuine and reliable, and hold ourselves prepared to replace, on proper proof, any that may prove otherwise, we do not give any warranty, expressed or implied, and in case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the goods.

All claims for errors or deficiencies must be made immediately upon receipt of the goods.

TERMS.—Cash with order from unknown parties or satisfactory references.

Five hundred will be furnished at the thousand rate ; fifty at the hundred rate and five at the ten rate.

The prices annexed do not include packing, which will be charged for at cost.

A certificate of inspection from the State Entomologist will accompany each shipment.

The fall shipping season usually begins here about October 15th, and the Spring season about March 15th.

Eatontown is about forty miles from New York, on the Southern Division of the C. R. R. of N. J.

14 to 16 ft., 4 to 5 " " specimens.....	7 50	70 00	

The Norway Maples offered above are thrifty, first-class trees in every respect and are offered at a low price simply because we must reduce our stock of same, which is over large.

The specimens offered were planted eight feet apart each way and have developed beautiful, symmetrical heads, have very straight trunks, and a splendid root system. They are grand trees in all respects and make a fine showing when immediate effect is wanted.

THE SHREWSBURY NURSERIES

	Each	Per 10	Per 100
Acer Platanoides, Schwedleri, Schwedler's Purple Maple.
